Because it's more than a house...

Trust Master eHomeManage®

A Simplified Way To Manage Your Home

Trust Master eHomeManage®

Managing the many home services commonly associated with homeownership just got easier thanks to eHomeManage. With a single phone call or click of the mouse you save time and money on ongoing maintenance and unexpected repairs from a single point of contact with end-to-end responsibility.

You get...

Secure Home Profile Database

eHomeManage begins with a Trust Master professional conducting a thorough *Home Profile* of the make and model number of every appliance, HVAC system component, plumbing fixture, exterior element and more. An itemized list of all essential home inventories is then generated and made available online through our secure client login portal.

Your eHomeManage Home Profile helps us help you:

- **Guarantee peace of mind:** You can relax knowing that ongoing maintenance and unexpected repairs are handled seamlessly from a single trusted source.
- **Save time and money:** The Home Profile includes an inventory of preferred service providers that guarantee you fast and reliable service at a discounted price.
- **Minimize the risk of potential problems:** Home Profile *Maintenance Messaging* notifies you via email of upcoming home maintenance that should be performed.
- **Manage future repairs:** The Home Profile *Service Notes Center* database contains historical service records that help isolate and diagnose repairs efficiently and cost-effectively.

eHomeManage
Simple. Convenient.

Preferred Provider Discount Guarantee

Our network of preferred providers have agreed to provide eHomeManage clients with a *Preferred Provider Discount Guarantee*. This means that pricing on services provided through our eHomeManage *Preferred Provider Network* will be lower than their published prices for services generally available to customers when ordering those same services outside our Preferred Provider Network.

Complementary Discount Programs

eHomeManage clients also benefit from the following complementary eHomeManage *discount programs*:

- **Advanced Service Scheduling** – by scheduling home repairs and maintenance services in advance, clients are eligible for handyman service discounts.
- **Direct Network Store** – by ordering replacement parts and home furnishings online through the Home Profile *Service Notes Center*, clients are eligible for redemption code discounts.
- **Service-As-A-Group** – by ordering home services as a group through the eHomeManage Preferred Provider Network, clients are eligible for group discounts.

Plus

Free Online Home Management Tracking Tools

eHomeManage Pricing

The following price structure to perform both the one-time in-home profile and eHomeManage profiler database entry is based on a sliding-scale fee structure and adjust according to home size. An annual account management and server maintenance fee applies.

| Home Size | Home Profiler Fee | Annual Fee |
|------------------|-------------------|------------|
| <3000 sq. ft. | \$499 | \$48 |
| 3-4999 sq. ft. | \$699 | \$48 |
| 5-6999 sq. ft. | \$899 | \$48 |
| 7-9999 sq. ft. | \$1,099 | \$48 |
| > 10,000 sq. ft. | Per Estimate | \$48 |
